Key word sign is the use of manual signs and natural gesture to support communication. Key word sign is used to encourage and support language development in children and adults with communication difficulties.

Key word signing uses a core vocabulary of concepts and ideas considered to be the most appropriate for children and adults with communication and language difficulties.

Main words (or concepts) of a message are matched to a hand sign or, using natural gesture or signs borrowed from Auslan. These signs are used with the word order of spoken English.
